

Le MC Pré Pré

The MC PRE PRE is an active step up device created around an extraordinary operational amplifier.

Running in class A, it combines extremely low noise with transparency and neutrality - qualities you come to expect in more expensive equipment.

An outboard power supply is used to avoid electronic field interference with the signal.

Power requirement	220 Volts or +/- 12 Volt DC
Power consumption	4 Watts
Input Sensitivity	0,2 mV

GENERAL	
Power :	10/16 A CEE PLUG and STEREO JACK 6,35
Inputs and Outputs :	RCA socket insulated from chase
Dimensions :	250 (W) x 80 (H) x 210 (D)
Net Weight:	3 Kg
